STEP 3 SCORE REPORT

Raza, Asad

Test Date: February 9, 2004

USMLE ID: 0-620-952-2

The USMLE is a single examination program for all applicants for medical licensure in the United States; it replaced the Federation Licensing Examination (FLEX) and the certifying examinations of the National Board of Medical Examiners (NBME Parts I, II and III). The program consists of three Steps designed to assess an examinee's understanding of and ability to apply concepts and principles that are important in health and disease and that constitute the basis of safe and effective patient care. **Step 3** is designed to assess whether an examinee possesses the medical knowledge and understanding of clinical science considered essential for the unsupervised practice of medicine, with an emphasis on patient management in ambulatory-care settings. Results of the examination are reported to medical licensing authorities in the United States and its territories for use in granting an initial license to practice medicine. The two numeric scores shown below are equivalent; each state or territory may use either score in making licensing decisions. These scores represent your results for the administration of Step 3 on the test date shown above.

PASS

This result is based on the minimum passing score recommended by USMLE for Step 3. Individual licensing authorities may accept the USMLE-recommended pass/fail result or may establish a different passing score for their own jurisdictions.
